

OUR PHILOSOPHY

CREATING FUTURE TECH LEADERS

With cutting edge courses to make your child future ready.

Today, children are growing up as first citizens of the digital world. We want to help parents ensure that their child's relation to technology is not just that of a passive tech consumer. We are not happy with them just being a tech creator either – We want the children to be **Future Tech Leaders!**

Leaders are about Excellence and Independence. Hence, we obsess about building **Independent Coding Confidence** in every single child. That means their learning is not dependent on the teacher, only facilitated by it.

Every project they do – they are measured not just on the output but on their confidence & ability to make it entirely on their own. As ambitious as it sounds, without it we feel we haven't done our job. There is no point copying code or making impressive projects with 90% contribution by the teacher and passing it off as student's project.

Apart from having computer science alums from IIT & CMU as curriculum heads, PurpleTutor is the only platform that:

- Mandates every teacher to have a formal Computer Science degree.
- Has inhouse teacher training, PurpleTutor Academy, where teachers are trained to let the students Lead the curriculum journey as per their creative ideas, ability and interest.
- Ensures each child develops Independent Coding Confidence, and go from being a Coder -> PurpleCoder!

LEARNER

9 SESSIONS

ENTREPRENEUR

40 SESSIONS

MAKER

100 SESSIONS

DEVELOPER

200 SESSIONS

What Will Your Child Learn?

Basic programming concepts, algorithms, sequencing, debugging, conditionals.

What Will Your Child Do?

Write code to solve puzzles, create minecraft projects and geometric patterns.

What Will Your Child Learn?

LEARNER + advanced programming concepts, app development, loops, events, functions, variables, basics of UI / UX design

What Will Your Child Do?

Write code to create complex geometric patterns, animations & games using sprites. Write code to design & create your first mobile app.

What Will Your Child Learn?

ENTREPRENEUR + Machine Learning, AI, Advanced App Development With UI / UX, Big Ideas In AI, Text Recognition, Speech Processing, Image Recognition

What Will Your Child Do?

Write code in Scratch to create AI projects, train machine learning models for image, text & voice recognition. Design & create mobile apps.

What Will Your Child Learn?

MAKER + Python Programming Basics, 2d Animation And Game Design Using JavaScript, HTML And CSS, Cyber Security Basics, Data Science Fundamentals

What Will Your Child Do?

Write Code In Python To Create Geometric Patterns, Static Drawings, Simple Animation. Create 2d Animations And Games Using JavaScript. Create Their Own Personal Website. Represent, Manipulate And Analyze Data In Google Sheets Using Python Panda Library Commands.

Benefits

02 Class Projects

Benefits

05 Class Projects
Publish 1 app on Google Play Store
Certificate for Core Programming Concepts

Benefits

10 Class Projects
Publish apps on Google Play Store
Certificates for :

- Core Programming Concepts
- App Development
- AI & Machine Learning

Benefits

20 class projects
Certificates in

- Python Programming Basics
- 2D Animation and Game Design
- Website Development and Data Science Fundamentals

Personal website hosted on PurpleTutor domain

STUDENT PROJECTS

PurpleTutor's project based learning boosts students' creative thinking, logical thinking and problem solving skills.

ANIMATION

Cinderella Story

Concepts

Sequence, Loops,
Basic Algorithm

APP DEVELOPMENT

Solar System

Concepts

Functions, Nested Loops,
Design Thinking

GAME DESIGN

Alien Game

Concepts

Conditionals, Variables,
Logical Thinking

PARENT TESTIMONIALS

Among the three extra curricular classes Aman has signed up for, PurpleTutor is the one he enjoys the most. He seems to be doing the coding projects on his own all the time, while I constantly need to chase him for the other two!

Ashutosh Wakankar, Aman's father, USA
